EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 1-26.

This application is in condition for allowance except for the presence of claims 1-26 directed to inventions non-elected without traverse. Accordingly, claims 1-26 have been cancelled.

The following is an examiner's statement of reasons for allowance:

Optical signal transmission devices having optical signal amplifying triode units are known in the art. See Maeda, US Pat. 7,130,109 B2. However, none of the prior art fairly teaches or suggests an optical storage device having, *inter alia*, a control light generator, signal amplifying triode unit, optical distributor, buffer memory element, feedback transmission path, and optical signal storage control means, in the manner currently recited in the instant application. There is simply no plausible reason why one of ordinary skill in the art, at the time the invention was made, would be motivated to modify and combine know prior art devices to arrive at an optical storage device in the manner claimed in the present application.

Art Unit: 2874

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sung H. Pak whose telephone number is (571) 272-2353. The examiner can normally be reached on Monday- Friday, 9AM-5PM.
